

**GREAT NECK PUBLIC SCHOOLS**  
**Health Services**  
*Immunization Chicken Pox Requirement*

Date: \_\_\_\_\_

Dear Parent:

New York State Public Health Law 2164 was amended to require all children born on or after January 1, 1994 to show proof of immunity to Varicella (Chicken Pox), either vaccine or disease, beginning with their enrollement in 6<sup>th</sup> Grade.

This notice is only being sent to the parents of children for whom we have not yet received proper documentation of Varicella (Chicken Pox).

If your child has already been vaccinated or has had the Disease, written proof from your DOCTOR indicating the dates of injection or disease and doctor's signature must be provided to the school nurse and should be submitted now.

**Your child will not be permitted to attend school in September without documentation of this immunization.**

If you have any questions please call your child's school nurse:
