

In an effort to increase school safety, the doors to the school will remain locked before and during the school day. Faculty can use their ID's to "swipe" into the doors at the east and west gym entrances. All students and all visitors are expected to use the school's main entrance. Please do not prop doors open and/or open the doors for others.

We understand that this will be a bit inconvenient but we believe the increased security is worth it.

Thank you for your cooperation.
