Description: FIRST® LEGO® Robotics League introduces students to the fun and excitement of science and technology, while building self-confidence, knowledge, and valuable career and life skills. The program challenges students to think like scientists and engineers. Alongside instructors and mentors, teams solve problems and learn engineering concepts, presentation techniques and programming. With instructors guiding students, FIRST® LEGO® League teams (up to 10 members per team) apply science, engineering, and math concepts, plus a vast dose of imagination, to develop solutions to real-world challenges. FIRST LEGO League gives students and their instructors the opportunity to work together to solve a common problem. Challenged to research a real-world problem, and then create an original solution for that problem, plus design and build a robot using a LEGO® MINDSTORMS® or SPIKE™ Prime kit within a common set of rules to accomplish “missions” on a playing field, brings out the best in students.

All students are required to participate on all dates and in the FIRST® LEGO® League tournament scheduled for Feb. 8th & 9th.

Saturday Mornings at South High School

Sessions: 13 Days: Saturdays Location: SHS-West Auxiliary Gym
Program Fee: $430.00 Time: 9:00am-11:00am Grade: 4-5 (Must be 9 years old by 1/1/2020)
