

## Advanced Placement Program Honor Code

Over the years, John L. Miller Great Neck North High School has built a nationally renowned Advanced Placement Program. Administration and faculty are proud of the tradition of excellence that has been passed from one graduating class to the next. As a student enrolled in an Advanced Placement course, you have become a part of this tradition and you are expected to embrace your role in helping it grow. We are a college preparatory school whose AP scores influence our standing when it comes to college admissions for our students. The scores you achieve are yours but they also impact others in the Great Neck North school community.

AP courses require a major investment of time and determination to succeed. In return, the AP experience has been found to be a springboard to success for students when they continue their academic journeys into higher education.

As a result, we require all students enrolled in AP classes to work to their full potential and see the course(s) through to completion. All students are required to sit for the respective AP exam in May and negotiate it to the best of their ability. Failure to do so can result in the loss of senior privileges (ex. senior event) and can prove costly when it comes to one's standing at the college he or she will be attending since final report cards and transcripts are sent to schools. Students should keep in mind that one's high school transcript can affect acceptance when transferring or seeking admission into graduate school. For juniors, a lack of effort will result in deflated grades that will become a part of their permanent transcript.

**Enrollment in an Advanced Placement course is a privilege and students are expected to achieve a level of academic excellence that is commensurate with their individual ability.**

**I have read the above requirements and understand their importance:**
