

GREAT NECK SOUTH HIGH SCHOOL
MATHEMATICS DEPARTMENT

All freshmen are required to purchase their own graphing calculator. The calculators pictured below are all acceptable for high school classes. Only ONE of them needs to be purchased; the CX and CX II are color calculators with rechargeable batteries, the Touchpad is a black and white calculator which runs on 4 AAA batteries. There is a picture of each type below for your convenience.

Please NOTE a TI Nspire CAS or a TI Nspire CX CAS is not allowed to be used in regents level classes, when purchasing your child's calculator please make sure it is NOT a CAS model.

If you have any question feel free to contact the Math Department Head, Neel Chugh by email at nchugh@greatneck.k12.ny.us
