

Citizens Advisory Committee to the
Great Neck Public Schools
Board of Education

The Citizens Advisory Committee to the Board of Education met on Monday September 17, 2018. The members of the committee introduced themselves to one another and provided insight into why they each volunteered to serve in this role.

The committee is comprised of two Board Trustees, the Superintendent of GNPS, parents with children in enrolled in school, residents without enrolled students, teachers, administrators and a high school student in GNPS.

With some new members (and others returning for a second year of a two-year term), the committee reviewed its role as advisory to the Board of Education, and as conduits for concerns from and to the community.

The committee discussed briefly some items which arose last term and which may arise this year such as communications, security, and annual schools budget.

The committee agreed to remaining meetings on November 1, January 9, March 13, and May 6.

Respectfully submitted,
Rebecca Sassouni
Chairperson, CAC
Trustee, GNPS
